**Product Developer to Probi in Lund, Sweden**

Do you want to be a part of a dedicated team, with a passion for probiotics and product development? Probi is now expanding the Product Development and Application team with a Product Developer.

**Our offer to you**

- To be a part of a great company with a strong company culture where every individual counts.
- An exciting role where you will be involved in projects within the field of probiotic applications, mainly in the Consumer Healthcare area. This means close collaboration with our marketing and sales team based in Sweden, US and Asia/Pacific and also with other functions within Probi, for example R&D and Operations.

**Responsibilities**

- The role involves lead, structure and executing application development projects, both internal and customer driven.
- Design and implementation of finished formats of mainly probiotic consumer health care products, from lab scale to industrialization phase.
- Providing our Sales and marketing team with application expertise in customer interactions.
- Work with technical documentation, for example specifications and other documents for products and ingredients.
- Work with stability program, including producing and updating stability reports.

**Your background**

- You hold a MSc degree in Food technology, Biotechnology, Pharmaceutical Science or similar education.
- You have approx. 5 years of experience working in a similar role and have product development experience from the industry.
- Experience of microbiology and/or probiotics.
- Experience in project management, preferably in an international environment.
• Excellent communication skills in English, spoken as well as written

We’re looking for you...
• Innovative with a strong passion for healthy food and consumer health care products
• Customer-oriented and business minded
• Structured, analytical and problem-solving
• Prestigeless and with excellent team working skills
• Curious and possess the flexibility to meet various demands and priorities
• Independent with a strong personal drive

Place of work
Probi HQ at Ideon Science Park, Lund, Sweden. The position includes about 10 days of travel/year.

The recruitment process
In this recruitment we cooperate with Adeptus I Sverige AB, www.adeptus.se, Jenny Månsson Nummelin +46 703 31 85 06, and she will be happy to answer your questions.
